WAND e-apmācību platformas lietotāja rokasgrāmata

Partnerības mērķis bija īstenot projektu ar WAND komplektu kā galaproduktu. Šis ir mācību komplekts, kas sastāv no tiešsaistes mācību platformas, kurā ir ceļvedis un 20 mācību videoklipu komplekts. Tā mērķis ir iepazīstināt vecākus ar metodēm, kā mazināt bērnu atstumtību skolā.

Komplekts tika izstrādāts Moodle, mācību satura pārvaldības sistēmā (LCMS). LCMS ir platforma, kas integrē satura izveidi, piegādi, publicēšanu un analīzi vairāku lietotāju vidē.

The main content area is titled '2. Mistakes to avoid'. It contains text about common mistakes in education, specifically mentioning punishment for creative acts and excessive rules. There are two illustrations: one of a teacher pointing at a child, and another of a red pencil pointing at a checklist.

2. Mistakes to avoid

When we talk about creativity in education, mistakes are often made that undermine the child's creative ability

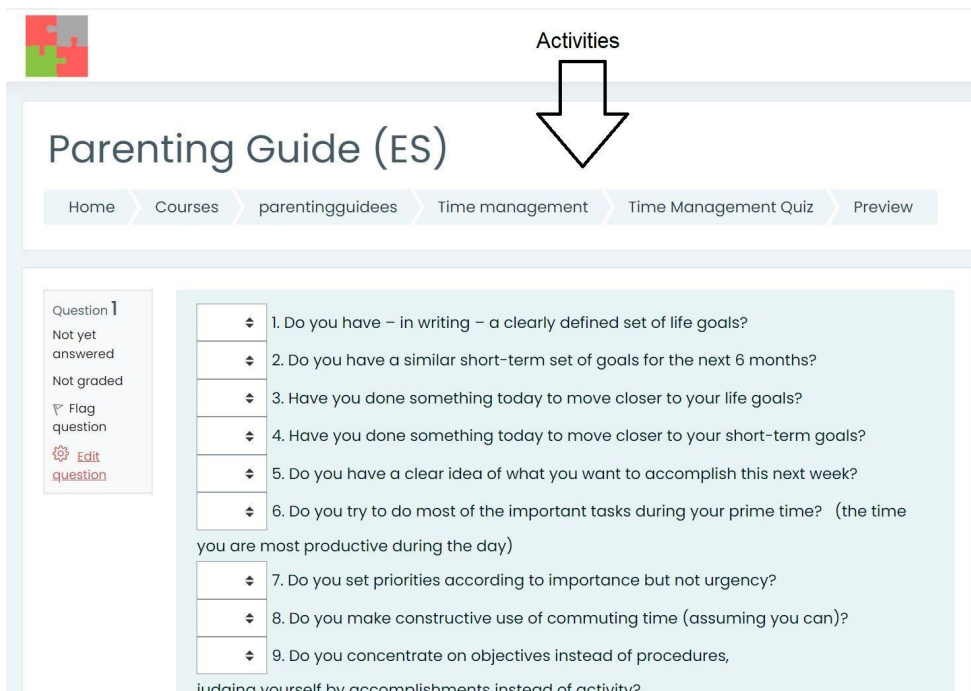

Here are the most common mistakes:

I. Punishment for his creative acts. There are many occasions when you punish or reprimand children's creative acts. It can be when they draw something, but different from what you asked for. An example when he/she colours a green sun. In these cases, we argue with them, asking them to colour it yellow. We are not realizing that we are killing the child's creativity.

II. Excessive rules. When we give them too many instructions on how they should do something. It's okay to guide them a little but leave them space for creativity and improvisation.

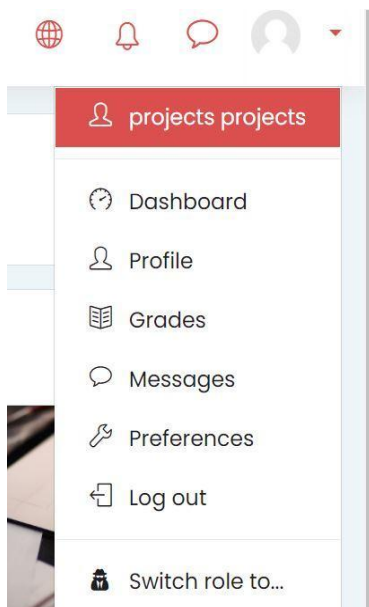

The screenshot shows the WAND platform interface with the same sidebar as above. The main content area is titled 'Video 4: What blocks your creativity'. It features a video player with a play button and a thumbnail of a man speaking.
